- Impact
- Collaboration
- Acknowledgment

purpose:
going to apply at blinkIt, an AI and ML solution providing company

Bio:
Hello, my name is Tarun Chawla and I am currently studying Computer Programming at Georgian College ILAC. I am a passionate machine learning enthusiast . I am fascinated by the way humans have created computers and how these electrical components come together to create powerful machines. This is one of the reasons I started learning to code at home. I want to work as an freelancer, specifically AI and ML freelancer.
